

COMPACT CONTROL. RUGGED PERFORMANCE.

ADG21K Air Angle Die Grinder

Whether you need a right-angle configuration or a straight, compact option, the ADG21K Air Angle Die Grinder won't let you down. Durable, versatile, and cost-effective, it's ideal for porting, weld grinding, smoothing edges, de-burring, and polishing.

SDG25K & SDGC28K Air Die Grinder

Designed for precise control and high-speed performance, the SDG25K and SDGC28K Air Die Grinders offer reliable operation in tight spaces. Their lightweight, ergonomic design ensures comfort while tackling tasks like weld cleanup, surface preparation, and detailed metal finishing.

COMFORT:

Both the straight and angle die grinders are ergonomic and lightweight, making them more comfortable to use for longer stretches of time.

ACCESS:

Available in both right-angle and straight configurations, these die grinders fit your needs and reach every tough spot.

LONGER LIFE:

The durable metal housing and powerful vane motor on these die grinders will make them trusted tools in your arsenal for years to come.

Piped Away Exhaust Ready:

These die grinders are compatible with "piped away" exhaust kits, so you can transfer exhaust away from you and your workspace.

Technical Specifications

Model	Rated Power kW (hp)	Max Free Speed rpm	Output mm (in)	Weight kg (lbs)	Length mm (in)	Air Consumption @ Load L/min (cfm)	Average Air Consumption L/min (cfm)	Air Inlet Size in	Exhaust	Mn Hose Size mm (in)
ADG21K	0.19 (0.25)	21000	6 (1/4)	0.46 (1.02)	134 (5.27)	680 (24)	170 (6)	1/4	Front	10 (3/8)
